PRESS RELEASE

Detroit Testing Laboratory, Inc. Announces Partnership with IBR

October 31, 2007

Detroit Testing Laboratory, Inc., a leading automotive and industrial testing and development laboratory, announces it has established a partnership with Inter Basic Resources, Inc. (IBR), a leading particle counting and analysis company. This partnership will combine IBR's filter testing and particle counting services with DTL's environmental, vibration/shock and fuel component testing in order to offer our customers more seamless access to these services.

The partnership between DTL and IBR will allow DTL to offer a full range of testing services for manufacturers of oil and fuel filters (automotive, military, agricultural), air filters (automotive, industrial and household), water filters (industrial processing and household) and medical filters.

"DTL is always looking for opportunities to expand our capabilities to our customers", commented Chief Executive Officer, Alfredo Apolloni. "This partnership with IBR is another critical step in our goal to continue to meet the demands of the markets we serve."

About Detroit Testing Laboratory, Inc.

Detroit Testing Laboratory, Inc. is an independent A2LA accredited testing and development laboratory, providing calibration, electrical, mechanical, fuel systems, environmental, dynamics, and materials testing services to automotive and industrial clients since 1903. More information can be found at www.dtl-inc.com.
